

CALL SIGN BOOK FOR SHIPS

ACP 113(AJ)

February 2019

FOREWORD

The Combined Communications-Electronics Board (CCEB) is comprised of the five member nations, Australia, Canada, New Zealand, United Kingdom and United States and is the Sponsoring Authority for all Allied Communications Publications (ACPs). ACPs are raised and issued under common agreement between the member nations.

ACP 113(AJ), *Call Sign Book for Ships* is an UNCLASSIFIED CCEB publication.

This publication contains Allied military information for official purposes only.

It is permitted to copy or make extracts from this publication.

This ACP is to be maintained and amended in accordance with the provisions of ACP 198.

CCEB LETTER OF PROMULGATION FOR ACP 113(AJ)

The purpose of this Combined Communication Electronics Board (CCEB) Letter of Promulgation is to implement ACP 113(AJ) within the Armed Forces of the CCEB Nations. ACP 113(AJ), *Call Sign Book for Ships*, is an UNCLASSIFIED publication developed for Allied use and, under the direction of the CCEB Principals. It is promulgated for guidance, information and use by the Armed Forces and other users of military communications facilities.

ACP 113(AJ) is effective on receipt for CCEB Nations and when directed by the NATO Military Committee (NAMILCOM) for NATO Nations and Strategic Commands. ACP 113(AJ) will supersede ACP 113(AI), which is to be destroyed in accordance with national regulations.

Publication	Effective for	Date	Authority
ACP 113(AJ)	CCEB	On Receipt	LOP

All proposed amendments to the publication are to be forwarded to the national coordinating authorities of the CCEB or NAMILCOM.

For the CCEB Principals,

Dominic Andrews
Lieutenant Commander Royal Navy
CCEB Permanent Secretary

CHAPTER 1 GENERAL INFORMATION

SECTION I. AMDENDING NATIONAL ASSIGNMENTS

101. Additions, changes and deletions to national assignments listed in this publication are to be staffed to the appropriate National Assignment Authority (NAA) for approval; a list of nominated NAA is at Table 1-1. NAA are responsible for the assignment of:

- a. call signs,
- b. Tactical Air Navigation Identifiers (TACAN ID) (where applicable), and
- c. visual call signs (not applicable to all nations).

102. NAA are to submit an amendment request to the ACP coordination team, by unclassified email or message (if applicable), using the following format (non-relevant chapters may be omitted):

SUBJ: AMENDMENT TO ACP 113(AJ)

AAA ADD CCC CHANGE DDD DELETE

CHAPTER 2 – CALL SIGNS

AAA or CCC or DDD (call sign), (name), (type), (hull ID), (nation – service)

CHAPTER 3 – TACAN IDENTIFIER ASSIGNMENTS

AAA or CCC or DDD (TACAN ID), (name), (type), (hull ID), (nation – service)

CHAPTER 5 – VISUAL CALL SIGNS

AAA or CCC or DDD (visual call sign), (name), (nation), (service)

POC: (rank, name, appointment, telephone)

103. Where an amendment is a change to a current assignment, the format is to include the before and after assignment using a ‘-TO READ-’ statement in accordance with the following example:

CHAPTER 2 – CALL SIGNS

CCC NAGP, ROBERT YERED, WPC 1104, USA-CG –TO READ- NRTY, ROBERT YERED, WPC 1104, USA-CG

104. As all ship details are managed in a single database, any changes to global information such as the ships name, type, hull ID, nation and service will be reflected across all chapters.

105. Deletion of ships with assigned TACAN ID will result in that ID returning to the respective national pool unless otherwise specified.

106. Amendments to Task Force Numbers (chapter 4) or other parts of this publication not covered in the example above are to clearly identify the paragraph or table number(s) along with the changes required in a narrative format.

107. NAA are to submit amendment requests to the CCEB as follows:

- a. CCEB nations – to their respective National ACP Coordinator,
- b. NATO nations – to the NATO ACP Coordinator (NAMILCOM),
- c. Other nations – to the Australian National ACP Coordinator by email to: ausacpcoord@defence.gov.au.

108. Following review, ACP Coordinators are to submit amendments for approval to the CCEB Permanent Secretary, for information to the Australian National ACP Coordinator.

109. Approved changes will be published into the current edition on a quarterly basis or when directed by the CCEB Permanent Secretary.

110. NAA details provided to this publication are as follows:

CALL SIGN DECODE

CHAPTER 2

CALL SIGNS

Using Call Signs

201. This chapter contains an assignment of international call signs for use by Allied, NATO and other participating nation's ships under military control. These call signs may be used in the following manner:

- a. International call signs may be broadcast in clear on unclassified public or military networks, such as safety nets, where there is no requirement to disguise the identity of the ship.
- b. Call signs are to be encrypted when contained within classified text.
- c. The "Any call sign" (Indefinite 2 letters) is to be temporarily used on unclassified nets in lieu of a permanent assignment where it is desired to conceal the ship identity. Note that when doing so, the nationality or service is not concealed.
- d. The "Any or All call sign" is to be used as an individual or collective call sign for the purpose designated (and area where specified).

National Assignment Ranges

202. Call signs listed in this publication which are permanently assigned to individual ships comprise of four letters or numbers, the first two characters of which are specific to a nation or organization as derived from the table below:

Table 2-1 Call sign assignment ranges

Callsign Range	Nation
9M	MYS

CALL SIGN DECODE

Encode / Decode

203. For quick reference, the ships and associated call signs are listed in table form in the following sections:

- a. **Annex A – Decode International Call Signs.** A list of all ships arranged alphabetically by call sign.
- b. **Annex B – Encode International Call Signs.** A list of all ships alphabetically arranged by nationality then service, branch or organisation.
- c. **Annex C – Encode Indefinite, Collective and Station Ship Call Signs.** Arranged alphabetically by nation, a list of individual and collective call signs that may be temporarily assigned to specific military ships or used as a collective call sign.
- d. **Annex D – Encode Indefinite and Collective Merchant Ship Call Signs.** Arranged alphabetically by nation, a list of individual and collective call signs that may be temporarily assigned to merchant vessels.

204. Depending on the layout of each section, displayed data may contain some or all of the following information:

- a. Name – The name of the ship (does not include prefixes such as USS, HMS, HMNZS, HS, etc.);
- b. Nationality – Nations are identified by their ISO 3166-1 three letter code as detailed in Chapter 1 Table 1-2;
- c. Service – Identifiers for the various branches of the various armed forces and other organisations are listed at Chapter 1 Table 1-3.
- d. Hull Category – A code to identify the function of the ship, these are listed at Chapter 1 Table 1-4.

CHAPTER 3

TACAN IDENTIFIER ASSIGNMENTS

General

301. This chapter contains a list of two letter Tactical Air Navigation (TACAN) identifiers assigned to TACAN equipped military ships. Also listed is a limited listing of two letter TACAN identifiers assigned to fixed and land mobile beacons pending assignment of three letter identifiers. These identifiers are listed here for record keeping purposes and to avoid duplication of assignments pending allocation of three letter identifiers.

302. Within this chapter, assignment of TACAN identifiers to ships and stations is as follows:

- a. Annex A – Decode TACAN Identifiers (Listed by ID)
- b. Annex B – Encode TACAN Identifiers (Listed by Nation/Name);

Requesting TACAN Assignment

303. **USA.** The Navy and Marine Corps Spectrum Office (NMCSO), who work for the NAVMARSPECCEN, will provide assignment of or changes to identifiers for fleet TACAN requirements for both the Department of the Navy and the United States Coast Guard.

304. Requests for assignments of, or changes to identifiers shall be forwarded to the NMCSO LANT, Norfolk, VA for Atlantic Fleet, or NMCSO PAC, Honolulu, HI for Pacific Fleet, as appropriate, who will assign permanent and temporary identifiers from lists contained herein. NAVNETWARCOM Suffolk, VA, Tactical Messaging code, N612, will be advised by the regional NMCSO office of all permanent changes or assignments for ACP 113 publications update and for the coordination of JAFPUB promulgations as appropriate.

305. Pending assignment of an identifier the last two letters of a ship's international call sign may be used at the direction of the OTC providing no possibility of conflict with assignments to ships in the same or contiguous area exists.

306. **Nations other than USA.** Each nation requiring TACAN identifiers has been allocated spare identifiers for emergency assignments; requests for assignments are to be staffed to the relevant command in accordance with national policy. All changes to assignments are to be reported as ACP 113 amendments in accordance with Chapter 1.

307. Additional identifiers have been reserved for allocation to individual nations as required.

Annexes:

- A. Decode TACAN Identifiers
- B. Encode TACAN Identifiers

CHAPTER 5

VISUAL CALL SIGNS

General

501. This chapter contains the allocation and assignment of visual call signs, otherwise known as pennant numbers or side-numbers, to allow for the visual identification of Allied ships. Table 5-1 lists the participant nations that subscribe to this visual call sign plan:

Table 5-1 Visual call sign participant nations

Nation	Nation
AUS --- Australia	KEN --- Kenya
BEL --- Belgium	MLA --- Malaysia
DEU --- Germany	NLD --- Netherlands
DNK --- Denmark	NOR --- Norway
ESP --- Spain	NZL --- New Zealand
FRA --- France	POL --- Poland
GBR --- United Kingdom	POR --- Portugal
ITA --- Italy	TUR --- Turkey

502. Participant nations are responsible for the accuracy of the information contained herein.

503. Participant nations are responsible for the avoidance of visual call sign duplication.

Amendments

504. Amendments to this publication are to be staffed via the appropriate national command to the ACP coordination team as follows:

- a. CCEB nations – to their respective National ACP Coordinator,
- b. NATO nations – to the NATO ACP Coordinator (NAMILCOM)

505. Other nations – to the Australian National ACP Coordinator by email to: ausacpcord@defence.gov.au

506. ACP Coordinators are to staff changes to the CCEB Permanent Secretary.

Encode / Decode

507. For quick reference, the ships and associated visual ID are listed in table form in annexes to this chapter:

- a. **Annex A – Decode Visual Call Signs.** Arranged alphabetically by visual ID, a list of national allotment ranges and assigned ships.

DECODE VISUAL CALL SIGN

- b. **Annex B – Encode Visual Call Signs.** A list of all assigned ships alphabetically arranged by nation and service

Annexes:

- A. Decode Visual Call Signs
- B. Encode Visual Call Signs
